

Wednesday 8th February 2023

Dear Parents and Carers,

As you are aware, the school was required to close yesterday and today due to unforeseen and emergent heating and water issues on the school premises.

In order for the issue to be fixed by engineers, there is currently limited access to water and heating on the school site and unfortunately I had to inform you that we had to remain closed today apart from the Year 11 students who are in for their exams.

I'm pleased to say that our hot water system is currently being restored and we now have hot water running in the kitchens. The site team has bled all of the radiators and we are currently trying to see if the heating system will kick in and it is on at present. This will mean that we can have all the students back in tomorrow as normal albeit wrapped up warm just in case.

Thank you for bearing with us whilst we worked to get this fixed and get your children back into face to face teaching as soon as possible. I also want to thank the site team who have been doing all sorts to work with the Engineers to get a fix in (even late into the night) place to have our students back in school tomorrow.

Yours sincerely,

Markieu Hayden
Headteacher
