At Norbury High School for Girls (NHSG), we believe in more than just academic success, we are dedicated to preparing students for life. As a high-achieving, all-girls Sixth Form in the heart of Croydon, NHSG offers an exceptional post-16 education that empowers young women to thrive academically, personally, and socially.

Why study at NHSG?

Our Sixth Form students benefit from a culture of high expectations, strong support, and personal growth. Ofsted (March 2022) praised NHSG as “a diverse community where pupils are valued as individuals... motivated by leaders’ high expectations.” Students are encouraged to think critically, act confidently, and pursue excellence, whether heading to university, apprenticeships, or directly into the world of work.

How We Deliver Excellence

Outstanding teaching and pastoral care are at the heart of our offer. Our weekly personal development programme blends academic mentoring, careers advice, resilience training, and cultural enrichment. Ofsted commended this approach, noting that “the pastoral programme and student opportunities help pupils develop resilience and self-confidence.” Every student is known and supported to achieve their potential.

What We Offer

NHSG boasts a wide curriculum including A Levels and vocational pathways in modern, purpose-built facilities. From Medical Science to the Arts, students learn in specialist rooms with access to high-quality technology and a welcoming sixth form centre. In 2024, 51% of A Level entries were graded A-B*, with students outperforming the Croydon average by over 10%. 84% of students secured their firm choice university offer, reflecting our commitment to excellent outcomes. Join a Sixth Form that’s forward-thinking, values-driven, and rooted in care. Come and see how we support our students to grow, lead and succeed. Visit us at our Open Evening and discover the future you can build at NHSG.

What our students say:

“Spending seven years at Norbury has been a life-shaping journey. The supportive environment, outstanding teaching, and enriching extracurriculars helped me grow both personally and academically. Every lesson felt purposeful, and the encouragement from staff and peers pushed me to aim high. I’ve since achieved a first-class honours degree in BSc Accounting, completed a summer programme at Copenhagen Business School, and am now in the final stages of my ACCA qualification. Norbury Sixth Form gave me opportunities and confidence I wouldn’t have found anywhere else.” Zoha

Important Information
