Dear Students,

Welcome to your 'Find out more...' page for Business. Business is a dynamic, practical and relevant subject that connects directly to everyday life. You'll explore how organisations are created, managed and grown, with topics including marketing, finance, human resources, operations and strategy. Lessons use real-world case studies to bring theory to life, helping you develop problem-solving, decision-making and evaluative skills. You'll also examine how external factors such as the economy, law, society and ethics influence business decisions. A Level Business is an excellent foundation for degrees, apprenticeships and careers in management, marketing, finance, law or entrepreneurship. We are excited to be part of your decision-making journey, and you're welcome to check in with us anytime to learn more about Business.
