

Psychology - Find out more...

AS AND A- LEVEL PSYCHOLOGY (7181, 7182)

Specification
For teaching from September 2025 onwards
For AS and A-level exams in 2026 onwards
Version 1.4 | September 2025

Dear Students,

Welcome to your 'Find out more...' page for Psychology. A-level AQA Psychology is a fantastic choice because it combines scientific investigation with real-world relevance, helping students understand human behaviour, thought, and emotion. It develops critical thinking, analytical, and research skills that are highly valued in higher education and many careers. The course covers fascinating topics like memory, social influence, clinical psychology & mental health, and biopsychology, encouraging curiosity about why people act as they do. Students also gain practical experience in designing and analysing psychological research. Whether aiming for a career in health, education, business, or law, AQA Psychology provides a solid foundation for understanding people and making informed, evidence-based decisions.

We are excited to be part of your decision making journey, and you are welcome to check in with us at any time to learn more about Psychology.

Ms Noel-Bain
Subject Lead
