

## Biology - Find out more...

Dear Students,

Welcome to your 'Find out more...' page for Biology. AQA A-level Biology is a fantastic choice for students passionate about understanding the living world. It offers a broad and in-depth exploration of key biological principles; from cells and genetics to ecology and evolution. The course is well-structured, combining theory with practical work that builds essential lab skills and scientific thinking. It supports progression to university courses in biology, medicine, and other life sciences. With clear assessments and real-world relevance, AQA Biology helps students develop analytical, research, and problem-solving skills. It's ideal for curious minds looking to make sense of life and its processes at both microscopic and global levels.

We are excited to be part of your decision making journey, and you are welcome to check in with us at any time to learn more about Biology.

**Mr Affram**
